GKDischarge8-10-2015 Crosstab.xlsx

Hi, Bob.

The results for a sample collected from the Gold King discharge on 8/10/2015 are attached. I still need to confirm with the field person exactly where the sample was located and will get back to you when that is confirmed. No promises that the water chemistry is the same today. In fact, I'd expect a lot of variability.

A different sample was collected from the effluent of the current settling ponds and I will get that data to you ASAP.

Jan
